CENTURY OLD, STILL SHOWS INTEREST IN LIFE TODAY

W. H. Downing Tells of Some of His Experiences in the Days of Long Ago

By R. D. KNICKERBOCKER
One hundred years!

One hundred years of turbulent throbbing life, filled to the brim with adventure and romance. Thirty years over and above the allotted span of three-score and ten given to mortal man here below.

Such is the story of W. H. Downing of Glendale, who, on next Wednesday will celebrate his 100th birthday.

It is a story replete with wild days of fishing voyages along the Newfoundland banks; of days, when as a lad of 14, "Bill" Downing shipped aboard his father's good ship Ajax; of days when pirates still swept the Atlantic Main and paid allegiance to none except the skull and bones of the Jolly Roger; of days when the fleet-winged Ajax slipped into island ports with New England produce, to barter for return cargoes of "niggers and rum," the former to be sold in New Orleans and the latter to be brought back to Boston.

It is a story of wilder nights when Downing, though only a lad in years, was doing a man's work and entitled to a man's privileges, would slip quietly overboard into the placid waters of a tropical port, and spend the night ashore with the ship's crew, absent "without leave," of nights spent in sentry duty in the malarial swamps of Central America.

It was hardly a life that one would suppose to be conducive to longevity, but "Bill" Downing comes of sturdy New England stock that is noted for its endurance and resistance to hardship.

And as the end of the cycle approaches, "Daddy" Downing, as he is now called, sits in his armchair in a peaceful home, snuggled up under the beautiful Verdugo hills, and—waits.

Folks Followed Sea

W. H. Downing was born in Wiscasset, Maine, July 13, 1821. His folks as far back as he can remember had followed the sea. His father was captain and owner of the Ajax, a coastwise schooner noted for its speed and ease of handling. Wiscasset, according to Downing, greatly resembled the harbor of Santa Cruz, here in California. The shallow waters would not allow the seagoing vessels to approach the wharves and they were loaded and unloaded from large, shallow lighters.

It was in this quiet hamlet that he spent his early days, but the tales of the returning sailors proved too enticing to a youth of his adventurous disposition, so, at the age of fourteen, after many parental arguments, he shipped aboard his father's ship as cabin boy.

Then followed five or six years of adventurous sailings to the West Indies and down the Gulf to New Orleans. It was the practice of coast schooners in those days to load up with a cargo of lumber and New England produce which was taken to the island ports. The vessel was then loaded with a return cargo of slaves and rum. The voyage was continued to New Orleans, and then the return trip was made to Boston. This was considered a perilous voyage.

Elliott C. Hensel Purchases Residence on West Burchett

Elliott C. Hensel, formerly of St. Paul where he was sales manager for a large manufacturing concern, has purchased from A. G. Larson the latter's residence at 339 West Burchett street. Mr. Hensel and his family have been in Los Angeles for nearly a year, and during that time have investigated many of the surrounding cities with the idea of selecting a permanent home.

Glendale's close proximity to Los Angeles, where Mr. Hensel is connected with several large mercantile concerns as consulting sales manager, together with its reputation as a clean city in which to raise a family, were the deciding factors in the final selection.

With Mr. Hensel are his wife, Mrs. Hazel Hensel and his five-year-old son. Mrs. Hensel was a visitor to this section when a young girl and can remember Glendale when it was comprised of one general store and a few scattering houses. After viewing the city on this trip she was amazed at the phenomenal changes that had taken place.

The Hensels have been stopping with Mrs. Hensel's mother, Mrs. A. L. Bolton, at the latter's residence at 1900 Michigan avenue, Los Angeles. Mrs. Bolton will return to St. Paul for a visit and expects to bring with her other members of the family who are contemplating moving to southern California.

The sale of the Larson home was negotiated by A. L. Baird, real estate and insurance manager of the Roy Kent Company.

Soldier Boys to Leave Glendale for Camp in Yosemite

Sixty-five members of the local company of the National Guard will leave tomorrow afternoon for the annual State Encampment, which will be held this year at Yosemite Valley during the next two weeks.

An enjoyable vacation is anticipated by the local boys who are going to make the trip. Four hours a day is reserved for drill and military problems. The balance of the time is free to be used as desired.

All of the expenses are paid by the government. A special train from the Pacific Electric will leave Glendale at 5:30 p. m. and take the boys to Los Angeles where they will entrain on a special train for the Yosemite.

Arrangements for their accommodation have been progressing for several days as Miller Young, Andrew Nelson and Burdette Rockholt, in charge of Corporal Roy Westman, all of Glendale, have been in the valley since the first of the month erecting the camps for Glendale Company M.

The party will be in charge of Captain T. D. Watson; the other officers are Lieutenant Normal C. Hayhurst, Second Lieutenants Norman Whytock and Charles W. Letts.

Friends Pay Tribute to Donald Franklin

Friends of Donald Franklin, 18-year-old son of Mr. and Mrs. Blake Franklin of 398 West Wilson avenue and who passed away suddenly Wednesday morning at 11:30, gathered together at the Little Church of the Flowers this afternoon at 2:30 o'clock to pay their last tribute of respect and to show the esteem they held for this young man.

Funeral services were conducted by Rev. C. M. Calderwood of the First Congregational church. Mrs. Frank N. Arnold and Mrs. Hartley Shaw, accompanied by Mrs. Edna Abell at the piano, sang two duets, "Beautiful Isle of Somewhere" and "Sometime We'll Understand."

Six boyhood friends of Donald Franklin acted as pall bearers, Robert Holland, Alfred Woodhill, Ray Spink, Robert Howlett, Waldo Yard and Stillman Chase.

Donald Franklin had been in ill health for almost a year. He was compelled to discontinue his high school studies and last September went on a ranch near Palmdale, where he seemed to improve in health. He was in Glendale to spend the holidays with his parents and was taken suddenly ill Sunday, necessitating his being taken to a hospital, where he passed away.

Interment was at Forest Lawn cemetery, Jewel City Undertaking company in charge.

WHY CITY CHARGES FOR COLLECTION OF GARBAGE

Public Statement Authorized by Council, Giving Facts for Change in Plan

The city council, on the recommendation of T. W. Watson, city manager, last night authorized the publication of a statement relative to the collection of garbage, waste matter and rubbish, for which a charge is being made.

The statement will include a list of the cities where a charge is being made for the collection service, the city manager pointing out that the policy recently put into effect by Glendale being adopted by a number of other cities in the southland. Councilman Dwight W. Stephenson made the motion that the statement be given distribution, after the list of other cities is included, the motion being seconded by Councilman A. H. Lapham and unanimously carried.

Statement Is Prepared

The statement as prepared by the city manager and approved by the council, excepting the list of cities, follows:

"In regard to the charges for the collection of garbage, waste matter and rubbish as provided for in Ordinance No. 445:

"There has been a little misunderstanding on the part of the public in regard to this matter in that the reasons that made the charge necessary were not well understood and for the further reason that some did not understand that it was a temporary measure. The city has been thoroughly canvassed, however, during the last two weeks and the people generally are responding to this measure without objection as they come to understand the situation. No doubt some complaints arising from misunderstanding in regard to this matter have reached the members of your council and in view of this and also in view of the fact that two of your members were not members of the Board of Trustees at the time the ordinance regulating this matter was passed, we have thought best to submit the following which is in a measure a restatement of what has been reported heretofore:

Policy for Several Years

"The policy of the city of Glendale for the past several years has been to collect the garbage and waste matter throughout the city twice a week. The expense of this has not been met from revenue from general taxation. During this period these collections have been provided for by contract with private parties who have been paid a sum for the gathering of the garbage and waste matter and have used the garbage for feeding hogs. The service rendered during this period although not at all times entirely satisfactory was as good as could be expected under an indirect service.

"The cost of this service under the last contract was \$200 per month for gathering the garbage and waste matter not including the gathering of papers and rubbish in the business district. A few months ago parties having this contract informed the city that it would be impossible for

"Gene" Settles, for several years a resident of this city, will be glad to hear of his recent return to Glendale from Boston, where he has been attending Harvard university during the past ten months. He is staying at the home of his mother, Mrs. S. M. Settles, at her home at 212 Dayton Court.

He will return to complete his course at the historic Crimson institution next September, and in June of next year will receive his M. D. degree.

During the summer months he will assist in the offices of Dr. T. C. Young of this city.

DRAFT OF PROPOSED PEACE PROCLAMATION PREPARED

SENTENCED TO JAIL FOR VIOLATING INDUSTRY LAW

COLUMBUS, Kan., July 8.—Alexander Howat, president of District 14, United Mine Workers, and August Borchy, vice president, today were sentenced to six months in jail and fined \$500 each by District Judge Boss for violating the Kansas industrial court law by calling a local strike over a wage controversy. Howat and Borchy were convicted by a jury last week.

PEACE SOCIETIES OPPOSE SAVING PLAN IN SCHOOLS

DES MOINES, July 8.—Arthur H. Chamberlain, of the thrift education committee, told the N. E. A. convention here today that he obtained 15,000,000 hand grenades to be given out as savings banks to school children but was stopped by peace societies, who insisted that such banks would teach the children of war. The educators still hope to distribute the grenade banks.

SON OF HARDING'S SECRETARY ON OVERDUE STEAMSHIP

WASHINGTON, July 8.—John Christian, son of President Harding's secretary, is on the overdue Munson line steamer Callao, his father said today. The boy's father, George Christian, learned today the ship on which his son is a cadet officer, is overdue. He immediately cancelled an engagement to go riding and made several long distance phone calls for further information on the vessel.

BODY OF UNIDENTIFIED WOMAN IS TAKEN FROM TOMB

COMPTON, Cal., July 8.—The body of an unidentified woman about 23 years of age was recovered today from beneath the floors of the Compton sanitarium, near Los Angeles, where she had been entombed alive. The woman, thought to be demented, had crawled under the floor through an opening in the brickwork while masons were making repairs. The opening was bricked up solidly. The young woman, unable to escape or make her calls for assistance heard, died of starvation.

KING GEORGE TRIES TO SOLVE PROBLEMS OF IRELAND

LONDON, July 8.—King George has assumed the role of principal mediator in the Irish negotiations. The king received Sir James Craig, premier of the Ulster parliament, at Buckingham palace today. Following by only one day his conference with Jan Smuts, premier of South Africa, and intermediary in the negotiations, George's action was regarded as deeply significant. Unconfirmed reports were immediately circulated that De Valera, president of the "Irish republic," would be the next important figure to be invited to Buckingham palace. The king, it was pointed out, really took the first step toward bringing about the present negotiations when, in opening the Ulster parliament recently, he pleaded for peace in Ireland, urging the people of the island to "forgive and forget."

INTENSE HEAT CAUSING DEATHS AND DAMAGE IN U. S.

NEW YORK, July 8.—Intense heat throughout the United States today caused many deaths and prostrations and inflicted severe damage to crops. From one coast to the other sweltering heat waves were reported, with the season's mercury altitude records shattered and little relief in sight. On the Pacific coast a trade wind brought down the mercury from records of 110 in Fresno and 106 in Sacramento. Pittsburg reported ten deaths this week and other parts of Pennsylvania nine. New England had scores of prostrations. Wheat and oat crops in northern states received serious damage. Ohio and Illinois are in the throes of the year's worst heat wave. Texas is experiencing the hottest weather of the summer. Canada was not spared, the mercury registering close to 100 degrees in many sections.

PROTECTION GIVEN MOVIE STARS UNDER TARIFF BILL

WASHINGTON, July 8.—America's high salaried movie stars and the lesser lights of filmdom have been placed under the "protective wing" of the tariff bill, now being considered in the house. As a result salaries of movie stars whose pictures appear on the American screen will not have to be slashed to enable American companies to compete with a brisk low-priced European competition that has suddenly sprung up. The tariff bill would provide protection for American "movies" by requiring a tax on all foreign films of thirty per cent ad valorem. Not only that but the Europeans cannot expect to make big profits by sending "daring" films to the United States. The bill makes the secretary of the treasury censor of all foreign films. The tariff is the result of the unexpected success of a few German films recently displayed throughout the country.

STATES PROVISIONS ON APPOINTMENT OF OFFICIALS

City Manager Gives Outline of Duties as Provided by Charter Sections

Provisions of the city charter relative to appointment of city officials and employees were outlined in a communication submitted to the city council last night by T. W. Watson, city manager.

No appointments were made by the councilmen and, on the suggestion of Councilman Dwight W. Stephenson, the city clerk was instructed to prepare and publish a notice to the public in which the list of officials to be appointed by the council is given and an invitation extended for candidates to file their applications and recommendations.

"I am being continually questioned regarding appointments," said Councilman Stephenson. "It seems to be the impression of a majority of the people that this council has a long list of appointments to make and intends to do so without due consideration of candidates."

"I believe we should publish a clear statement of the facts in which the list of offices to be filled by the council is given and, too, the declaration that full consideration will be given all applications for positions within the power of the council to fill."

Notice to Be Published

There was some further discussion during which Councilman Stephenson stated that the council should express itself as looking with disfavor on individual interviews being sought with councilmen by prospective candidates.

The motion to have the notice published prevailed unanimously after having been seconded by Councilman A. H. Lapham.

During the meeting of the council last night Geo. W. Bercau, a resident of Glendale for the past eighteen years, filed an application for the position of city manager, and James F. McBryde, well known local attorney, made application for the position of city attorney. Both applications were referred to the committee of the whole.

The communication relative to appointments filed with the council by the city manager indicates the ap-

You Win! This Fish Story Gets 1st Prize

Richard Roberts and son David and daughter, Miss Laura Roberts of 406 West Maple street, and Frank Kiefer spent the holidays at Hermosa Beach, where Mrs. Richard Roberts is located. They have a rather strange fish story to tell. Fishermen and spectators on the pier noticed unusually large splashes on the surface of the ocean. This proved to be caused by a large school of barracuda. The unusual part of the story is that the ocean became so thickly populated with fish that it forced the bathers out of the water and onto the beach.

340 North Cedar street, have just re-
turned from a four day's trip to
Perris, where they were guests of
Mr. and Mrs. Charles Foss, formerly
of East Elk street, this city. Mr.
and Mrs. Foss are living on one of
the largest and most fertile ranches
in Riverside county. It contains 160
acres and is located just outside of
Perris.

Mr. and Mrs. A. L. Frazee of 211
Milford street with their guests,
Mrs. Lucy A. Frazee and Miss Nell
Frazee of St. Louis, and Miss Hope
Lytle of San Francisco, spent the
Fourth at Long Beach. Bob and
Margaret Frazee spent the week-end
at Long Beach as guests of Miss
Millicent Alvord and her mother,
Mrs. Wilbur C. Alvord, who have a
cottage there.

Mr. and Mrs. Guy H. Morton and
daughter, Miss Ruth Morton, of 412
North Isabel street, Mrs. Florence
Morton and Hugh Freeman of this
city enjoyed a picnic party at Chats-
worth Lake, July 4. In the afternoon
they motored through Topanga Can-
yon to Santa Monica, where they vis-
ited the new Methodist camp meet-
ing grounds, and back to Glendale,
where they enjoyed a display of fire-
works in the evening.

Glen Peck and family have taken
a cottage at Ocean Park for July and
August.

Mrs. C. S. Thomas and Mrs. Alda
Thomas, both of Los Angeles, were
luncheon guests of Mrs. F. H. An-
derson of Montrose last Tuesday.

Miss Flora Kenny of Filmore vis-
ited her many friends here during
the week. She was house guest of
Miss Jessie Conlin.

Mr. and Mrs. Frank Armond and
children of Pasadena visited their
parents, Mr. and Mrs. H. A. Bald-
ridge, over Sunday.

The regular meeting of the Im-
provement association was held at
the school auditorium Thursday eve-
ning with an unusually large and
enthusiastic attendance. The meet-
ing was in charge of President F. H.
Czerniski and Secretary C. E. Cul-
berson. There were reports of a
number of committees and new ones
appointed. The committee on the
dance last week turned in \$116 to
the treasurer, which will be used for
equipment of the fire trailer. The
committee on the signs for the
streets reported them finished and
ready to put up. There seems to be
a little delay on the street lights as
there is a shortage of power. These
meetings are becoming very popular
and many new members are added
to the association each month.

of our beliefs is living up to them.

La Crescenta Notes

One of the most delightful af-
fairs of the last week was the re-
ception at the home of Mrs. E. G.
Luentzel, given by the Montrose
members of the La Crescenta Woman's
club to the club members and their
friends. The rooms were at-
tractive with summer flowers. Re-
ceiving with Mrs. Luentzel were
Messdames F. H. Anderson, H. R.
Tritt, W. A. Brown, E. Dodds, T. O.
Potts. During the afternoon a pro-
gram was given by Miss Marguerite
Hauber of La Crescenta, a most fin-
ished pianist. Miss Elizabeth Mottern
of Glendale sang a suite of
Cadman with great power and ex-
pression and several delightful vi-
olin solos were rendered by Mrs. H.
R. Tritt. Mrs. C. C. Horton and
Mrs. W. J. Hickey presided at the
punch bowl.

The La Crescenta friends are in-
terested in the announcement of the
marriage of Miss Elsie Cox to Glade
Rosencranz. Mr. and Mrs. Rosen-

The arrival of a son at the home
of Mr. and Mrs. Henry H. Cantor of
Montrose is the cause for congrat-
ulations.

Mr. C. E. Culberson and family re-
turned Monday from a motor trip
north.

Mrs. H. S. Bissell is planning a
garden party at her attractive home,

summer, the proceeds to go to the
building fund of the La Crescenta
Women's club.

trose to H. F. Arnswald and son of
Kansas City, who will take over the
business soon. Both members of the
new firm are experienced lumber
men and will keep a full stock of
lumber, cement, paint and builders'
supplies. This yard in the past week
has furnished the material for the
following houses: E. Dalton and C.
Wrenn, both of Montrose avenue;
Dr. Young, who will build in the
Bonnetta tract; E. Mallory, H. Smith
and C. Swanson on Honolulu avenue.
Mr. Reeve is the contractor for Mr.

Attention Mr. A. T. Cowan.

Gentlemen: At the recent meeting of our Glendale C. E. E. Convention recently held in our city.

Messrs. Ingram, Knickerbocker and Gilbert Cowan and in fact the entire staff all deserve special mention. It was the opinion of many of the state officers that the Glendale News covered this convention in a way that has not been surpassed in any other convention city.

Yours very truly,

HOWARD L. BROWN,
Chairman, Glendale C. E. Convention Committee.

Ordered to be filed and referred to the budget committee.

The city manager presented a communication in regard to the question of garbage, etc., as provided for by Ordinance No. 445 in which he called attention to a misunderstanding of the matter on the part of many of the people.

The communication set forth the policy of the city for the past several years and the various experiments made in connection with the matter, leading to the conclusion that the city should purchase the necessary equipment to gather garbage direct; this necessitating the purchase of a truck for which no provision had been made in the budget. The communication further states that the present plan of charging for the gathering of garbage is only temporary and is intended to cover only the first six months of the fiscal year which begins July 1. TEACHERS IN HIGH SCHOOLS TO HAVE VARIED PROGRAM

Annual Meeting Of Southern
Section Will Be Held
On July 11 And 12

The southern section of the California Teachers' association will hold its annual meeting in Los Angeles at Millsap hall on July 11 and 12, in conjunction with the summer session of the University of California.

Superintendent Horace M. Rebok of Santa Monica, chairman of the program committee, has announced an interesting array of subjects and talent for this meeting.

On Monday morning, July 11 at 10 o'clock there will be a general session. Dr. Ernest Carroll Moore, director of the southern branch of the university of California, will give the first address, the title of which is: "Plato and Socrates and the New Philosophy of Knowledge."

This will be followed by an address by Professor Franklin Whitman Robinson, head of the Aural Theory department of the Institute of Musical Art of New York City, on "A Reasonable View of Harmony."

Literature of Bible

At the general session Tuesday, Prof. George R. MacMinn of the California Institute of Technology will speak on "The Literature of the Bible."

As an offset to some of the socialistic propaganda of the present day, Dr. Frank Wilson Blackmar, dean of the graduate school of the faculty of the summer session of the University of Southern California, will deliver a lecture on "Justifiable Individualism."

The afternoon sessions of each day will be taken up with round table discussions of some of the vital questions affecting secondary education at the present time. Included in these are:

"Administration; Co-operation in Building the Esprit de Corps of Faculty; Teacher Responsibility." Leader, Merton E. Hill, principal Chaffey Union high school, Ontario.

"Intelligence Testing; Value, Use and Method." Leader, Dr. A. H. Sutherland, director of department of Psychology and Research of Los Angeles city schools.

Varied Subjects Chosen

"Vocational Guidance and Placement; Rehabilitation." Leader, Prof. Robert J. Leonard, director of Division of Vocational Education, University of California.

"Project Method in Secondary Education." Leader, Miss Mary C. Colver, head of English Department of Manual Arts high school, Los Angeles.

"The Overhead Program in Building for Citizenship." Leader, C. B. Moore, principal Franklin high school, Los Angeles.

"The Junior High School, Its Problems and Achievements." Leader, Miss Helen Watson, assistant superintendent of schools, Los Angeles.

"Social Functions of the High School." Leader, Miss Nellie Greene Clark, dean of girls, Pasadena high school.

Make Effort To Halt Action On Bonus Bill

WASHINGTON, D. C., July 8.—President Harding's influence was invoked by republican senators to prevent passage of the soldier bonus bill.

Before the excitement occasioned by Secretary Mellon's anti-census letter to Senator Frelinghuysen had died down in republican ranks, G. O. P. senators were quietly told by some of their leaders today that President Harding agreed entirely with Mellon.

That Harding had counseled congressional leaders to let the bonus question rest until some solution of the tax problems had been arrived at.

Coincidentally with their statements regarding Harding's view of the matter, which they counted on to keep some senators "regular," leaders were preparing other means of setting aside the bonus measure until a time they deem more suitable for its consideration.

Senator Frelinghuysen probably will take a leading part in the administration effort to shelve the bill. A motion to send it back to the finance committee is one means being considered. Another is a revival of the senatorial recess, either through another attempt to put through a resolution for a long lay-off or by means of three-day recesses.

Senator Lodge planned to seek an adjournment until Monday if assured of sufficient support.

The individual who tells the truth with deliberate carefulness isn't believed half as often as the fellow who can lie gracefully.

Couple Wed 60 Years Take Ride In Plane

MILFORD, Ia.—Monday, June 13, sixty years after their marriage, Mr. and Mrs. John Geisinger are to take their honeymoon trip in the clouds. The old couple plan an airplane trip to the home of their daughter, Mrs. J. F. Ewen, six miles from Milford.

The plane will be piloted by Flavio Donaldson, a grandson. The arrival of the honeymooners will open an old-fashioned family reunion in honor of their sixtieth wedding anniversary.

Epidemic Of Costly Fires Is Now Over

SAN FRANCISCO, July 8.—The epidemic of costly fires which swept large areas of forest and grazing lands during the week-end is practically over, according to the local bureau of the United States forestry department.

"We consider ourselves exceptionally lucky," stated one official of the department today. "Travel over the week-end was very heavy because of the holiday on Monday, which drew many thousands of tourists to the hills—most of them with firecrackers."

The hot dry spell throughout the state made it especially susceptible to fires. Although considerable damage was done by a number of fires, all of them were quickly brought under control and all of them are now out except two small fires in Plumas county, which, although still burning, are reported under control.

A brush and grass fire in Knight's Valley, Sonoma county, threatened to do considerable damage late yesterday but due to quick work of the firemen it was quickly extinguished.

Reports from Newhall indicate the fire which started in Bouquet and which swept northward along the state highway is now under control. Owing to the nature of the country the damage was slight, although for a time the fire threatened the grain district. One of the fire fighters is said to have lost his life when he backed his automobile over the grade.

Man Shot By Former Convict Is Recovering

HOOD RIVER, Ore., July 8.—T. J. Miller, Oak Grove orchardist, who was shot near here by Luther Fagan, former convict, who was himself later killed by a sheriff's posse, was reported today to be recovering. The bullet from Fagan's revolver grazed the rancher's chest and plowed through his right arm.

Fagan, who has been sentenced to a two-year term for attempting to assault Miss Louise Watkins, a daughter of Mrs. Miller by a former marriage, returned here making threats against the Miller family.

He shot Miller when he refused to divulge the whereabouts of the girl, forced Mrs. Miller, her daughter and adopted son into the Miller automobile and escaped.

The former convict was overtaken by a sheriff's posse and was ordered to release the women. He refused and during the discussion between the man and the sheriff's posse shot Fagan through the head, in spite of the presence of the women, whom Fagan was using as a shield.

If a robin flies into a church and on the altar, it is a sign that a death has just taken place.

Mother Matthews Gives Educators Some Advice

DES MOINES, Ia., July 8.—When the mayor of your home town dismisses dignitaries to admit you, the conductors on the street cars refuse to take your nickels and all the children and half the grown-ups call you "Mother," then you have earned your full compensation for a life of service to the community as a teacher.

Today Mrs. Matthews told the nation's educational leaders what was what and no one dared sass "Mother" back for talking as she did.

"I just told them," she said with a chuckle, "to forget they were such big guns in education and get down to earth. They should be just teachers with the rest of us. That is what the trouble is. We want to be such big persons. Law sakes, we need leaders, but we need teachers too."

Mrs. Matthews is a dynamic little gray-haired woman, a teacher of many years, who refuses to grow old or drop out of things. She has stuck to one job as teacher of salesmanship and commerce, but has kept her mind and heart interest young by work for community betterment and more consecrated interest in the welfare of the child.

She addressed the National Educational association in convention here today as vice-president of the Federation of Teachers.

"I am old-fashioned," she said. "I believe in the Bible, discipline and making children mind. I make my children mind and yet they love me. Why, everybody calls me 'Mother' and I like it. I feel that it means I am a good neighbor. I try to help the other fellow."

"I am probably the oldest teacher but I get fun out of life. We teachers in the east do not get much money but there is better compensation in life."

The individual who tells the truth with deliberate carefulness isn't believed half as often as the fellow who can lie gracefully.

WHO can account for the whims of Fashion? Women don't attempt to. They simply accept them. And how quickly are those whims sensed and felt to be inevitable!

So the vogue of Florient Talc comes very naturally as an outcome of the present mode. The art of the Orient enriches every phase of Fashion's fancies. Oriental colorings and designs in costume call for "Flowers of the Orient" in the boudoir. Florient Talc best carries out the feeling of this art. Its perfume seems a very part of these costly fabrics.

The color too, is different, a warm Oriental tone, just off the white.

And again one senses another vogue—a new use of Florient Talc. For while it is fulfilling the duty of an after-the-bath powder, Florient Talc imparts a delicate fragrance that clings exquisitely about the woman using it—as a powdered perfume.

Man Is Entitled To Have His Ring Back

ASBURY PARK, N. J.—When a couple in New Jersey both agree to break an engagement, the man is entitled to his ring back. This delicate point was settled by Judge Lawrence of the common pleas court in the case of a Trenton man, who had resorted to the law to get back the circlet he had given his erstwhile sweetheart before she had married another man.

REMOVING INK STAINS

Pyrophosphate of soda is recommended for the removal of ink stains. This salt does not injure vegetable fibre and yields colorless compounds with the ferric oxide of the ink. It is best to first apply tallow to the ink spot, then wash in a solution of pyrophosphate until both tallow and ink have disappeared. Another formula is to use a mixture of four parts of tartar and two parts of powdered alum. This is not injurious to cloth. Other stains also may be removed with it.

HEY! EVE'S SISTER NOW IN LONDON! SHE'S SILENT

Arrives In Packing Case, Is 8000 Years Old And Is Causing Comment

BY A. J. WEST
United Press Staff Correspondent
LONDON—Eve's sister has arrived in London.

She lies in a square deal packing case in the Egyptology section of the University College, Gower street, and she doesn't mind in the least being called the oldest young woman in the world.

Professor Flinders Petrie, who has been reawakening the centuries in Egypt, has just brought this mummy to London. She is at least 8000 years old. Beside her Moses is quite a modern young fellow, and to her the twelve Caesars are but as yesterday.

She lived in pre-dynastic Egypt, long before history had begun. She was thousands of years before the pyramids and before men chipped on stone the record of their lives and times. Although other pre-dynastic skeletons have been discovered in Egypt, this is the oldest preserved body of a woman ever known.

She's Sun Kissed

Experts say she was about twenty years old when she died. She lies with her knees drawn up to her chin and one hand resting before her mouth. Her preservation is due to exposure in the sun. She has been sundried and then left in the sands of Egypt while empires rose and fell and centuries, like tides, washed over the world.

Most of her bones are exposed, a pale amber color, and here and there are a few inches of neatly woven cloth adheres to them—her 8000-year-old gown! Her head is wonderfully preserved. Her eyes are large, her forehead broad, and she was certainly a tall, slim girl.

The museum, in which she lies, contains some beautiful, soft Egyptian fabrics. Perhaps some night a poor little ghost will be seen looking for a new dress, because at the moment Eve's sister is by far the worst-dressed woman in London.

U. S. Is Leading For South American Trade

By A. J. WEST

United Press Staff Correspondent

LONDON—South America is today the brightest jewel in the diadem of trading nations and one of the keenest struggles in the history of commerce is now in progress for possession of a priceless treasure.

This is the opinion of Sir Kingsley Wood, M. P., parliamentary private secretary to the Minister of Health, and an authority on South American trade and affairs.

"The championship is being played mainly in the Argentine Republic," said Sir Kingsley. "The stakes are 100,000,000 pounds and for the moment the United States are winning."

"Great Britain, it is only fair to say, was once the undisputed champion, nor need she be afraid of the reason why she was thrown off her form. It was the war that turned the Argentine competition upside down. It found us first and America second; it left us second; and America first. Not less significant, it sent Japan shooting ahead of Germany, France, Italy and Belgium."

"The arrival of Japan is a surprising event to many Englishmen. In 1915 she sold to Argentina just over 200,000 pound worth of wares. For the first six months of 1919, that total had leapt up to 3,450,000 pounds and it continues to rise. Chiefly it is a trade in cotton yarn, cotton drill, silk handkerchiefs, glossy silk, calico, socks and an assortment of toys, buttons and lead pencils. Japan, moreover has opened a bank at Buenos Ayres, while several Japanese merchants are now in business there, and she has a line of steamers sailing regularly to the River Plate. Definitely, in short, Japan has arrived among the nations."

"As time goes on the race for first place in the Argentine market will probably be between the United States, Japan and Britain. As for Germany, her future in South America is as yet uncertain. Once upon a time she supplied Argentina with more than half of all the jewelry and metalware bought from the rest of the world."

"Today the agents of German manufacturers are back again, offering chemicals and dyes, machinery and hardware at 'cut' prices. But abnormal competition of that sort admittedly cannot endure, and in any case it has not materially affected the main struggle between the United States and Britain."

Here there is no reason why Great Britain should not take the lead as emphatically as she has done on the golf links. The Argentine people like us, and they like our methods. Millions of pounds of British capital have helped to develop their country."

"If the prize were the chief share in a yearly trade of one hundred million pounds, it would be well worth the striving for. It is much more than that. The Argentine is like Australia; she has just begun to grow, and nobody can mark the limits of her future."

Peace Resolution Is Proof Against Attack

WASHINGTON, July 8.—The peace resolution is proof against restoration of ex-enemy property via the courts, George E. Williams, managing director of the alien property bureau, declared today.

Williams said that the government was not alarmed at the report that a battery of lawyers retained by ex-enemies would file suits for the return of property held by the alien property custodian immediately after a formal presidential proclamation of peace.

About 33,000 estates of a total valuation of approximately \$500,000,000 are now in the hands of the custodian, Williams said. Of this amount \$326,855,953 belongs to German subjects; \$39,555,557 to Austrians and \$31,866,053 to "American enemies." However, some of the American property has been returned since the armistice and the latter figure is now smaller, Williams said.

American property seized in Germany amounts to about \$25,000,000, according to official German figures, Williams said.

Williams declared that the ultimate disposal of ex-enemies' property would have to await congressional legislation.

Ideal Business Woman Is Described By Man

HARTFORD, Conn., July 8.—"Extensive blondes and girls with bobbed hair have no place in American business life," F. E. Daniels, president of the Aetna Insurance company, employing 3000 women throughout the country, told the United Press today.

The company recently issued a mandate that no more artificial blondes or girls with bobbed hair would be employed and that employees in either category would have to get back to normalcy as rapidly as possible.

"Artificially blonde hair is a sign of light headedness," Daniels declared. "Blondity is a mark of lack of intelligence. If any more bobbed-haired girls or blondes get into our offices they will have to crawl through the keyhole."

"There are some in this office now but we are going to get rid of all of them as soon as possible. Of course, we can't make any set rule but we have advised these girls to drop all artificiality at once."

"The Swedish blonde is very pretty, even if she bobs her tresses, and she is diligent, faithful and studious. It is the brunettes who use peroxide who get me."

"Business researches have proven that ninety per cent of blondes are useless. All women who bob their hair are useless. Some say they have cut their hair to avoid the heat but I can tell you there is a hotter place waiting for them."

"My ideal of a business woman is one who has two or three years' college work, does not powder her nose, does not watch the clock, does not rouge her cheeks and does not smoke cigarettes."

"I can tolerate the woman who lays aside her corset. That is comfort. But it is carrying comfort too far to bare oneself in bobbed hair. I think the movies are responsible for girls doing this."

"I don't wish to give the impression that women should neglect their dress. I believe business girls should be attractively garbed in pure business style, the same as business men."

"When you're dishing out my employees, for God's sake give me long-haired brunettes."

The Colorado catastrophe is a reminder that among the greatest floods of history were the tropical hurricanes at Galveston, Texas, that in 1900 lifted the waves from the gulf many feet above the high-tide level causing a loss of 8000 lives; that caused by the breaking of a dam at Johnstown, Pa., in 1889, with thousands of fatalities; the flood at Hoangho, China, in 1853, and a tidal wave in Bengal in 1876 which drowned 200,000 people.

Shirley Mason to Be Seen in 'Wing Toy'

Glendale Theatre goers will have their last opportunity tonight of witnessing Sir James Barrie's "Sentimental Tommy," which is showing to packed houses throughout the country.

Tomorrow this ever popular house will offer winsome little Shirley Mason in her latest and what is declared to be her most beautiful William Fox production, "Wing Toy." This story was written by the well-known author Pearl Doles Bell, who was responsible for both "Her Elephant Man" and "Love's Harvest," two stories in which Miss Mason achieved marked success. In "Wing Toy" she appears as a little maid living in New York's Chinatown, surrounded by all the sinister craftiness of the Oriental. She has been delivered as a baby to a Chinese laundryman, and reared by a wealthy and powerful Chinaman who is a dealer in opium. She grows to respect the mysterious power of her "father," while he has learned to worship the child.

The district attorney engages in a war upon the opium dens of Chinatown, in which he is assisted by Bob Harris, a young reporter, who becomes interested in welfare work. During a raid Harris meets Wing Toy (Shirley Mason) and falls madly in love with her, but realizes the hopelessness of his love, owing to racial barriers. How Harris gets her away from her Chinese surroundings furnishes a delightful story. Is she really a Chinese girl, and does her love affair turn out satisfactorily? It's all told in the picture.

Elks' Vanguard Given Los Angeles Greeting

LOS ANGELES, July 8.—The vanguard of the "deer brothers" is here. Delegations from St. Louis and Jackson, Mich., hold honors for being the first visitors to arrive for the annual grand lodge reunion of the B. P. O. E., which opens here on Monday.

The Jackson drill team, which won the \$3000 cash prize and the national championship at Chicago last year, arrived here on the Santa Fe. The "champs" are under the leadership of Captain W. Sparks, formerly mayor of Jackson. All are world war veterans.

The St. Louis delegation, headed by Dr. Carroll Smith, a past exalted ruler, and Lawrence McDaniel, leading knight of the lodge, arrived at almost the same time as the Jacksonians, over the Salt Lake route.

During one hundred and forty-five years, the United States has engaged in 110 wars or military expeditions.

Bride Makes Attempt To Clear Up Charges

WASHINGTON, July 8.—Charges of "romancing" about his thrilling air battle over the German lines in 1918 started the troubles of Captain Edmund C. Chamberlain of San Antonio. True romance, he declared today, will end them.

For his bride of five months has rallied to his defense and is actually directing his fight to clear his name of the stigma of a court-martial dismissal from the marine corps.

She drew the maps and briefs he used today in testifying before the Senate naval committee in an effort to prove his story of the fight over the lines in France was true.

He recounted how he shot down five boche planes, forced two others to land and falling earthward in his damaged plane he scattered a detachment of German troops with machine gun bullets. After landing, according to his story, he captured a German prisoner by pretending that his airplane compass was a hand grenade and with his aid carried a wounded French soldier to safety.

Chamberlain's hunt for evidence to substantiate his story led him to his home—San Antonio. He met a beautiful debutante, the daughter of Colonel F. A. Winter of the army.

Discredited by local gossip, the alleged bogus hero was refused a dance by the winsome Mary Stuart Winter. Later he had an opportunity to tell his side of the story and she fell in love with him.

Colonel Winter objected to the match. But after listening to Chamberlain's story from the lips of his daughter he withdrew his objection. And last February—three days after his dismissal—she married him in Philadelphia.

So eager was the young wife to clear her husband's name that the honeymoon was cut short. A gifted artist, Mrs. Chamberlain had taken a course in drafting. During the war she "did her bit" as a drafts-woman in a Washington war office.

This talent she turned to the task of lifting the cloud from her husband's name. Her maps of the minute details of the French sector where Chamberlain's alleged exploit took place will give the committee an ocular idea of the ground and visualize her husband's testimony.

SOMEWHAT OVERNAMED

While the majority of parents are content with one or two Christian names for their children, there are others who must have a long string of them. Thus there was living in England a short time ago a woman who had a name for every letter of the alphabet, from Anne Bertha Cecilia to Winifred Xenophon Yetty Zeus.

I look upon the simple and childish virtues of veracity and honesty as the root of all that is sublime in character. Speak as you think, be what you are, pay your debts of all kinds.

He who has good health, good humor and no debts is not poor.

Police Searching For Nurse In Murder Case

CLEVELAND, July 8.—Police today were searching for F. J. Utterbach, male nurse to Daniel Kaber at the time he was stabbed to death in his home at Lakewood, Ohio, two years ago.

Utterbach was expected to be one of the chief witnesses for the state in the trial of Mrs. Eva Katherine Kaber, charged with the murder of her husband.

It is known Utterbach was working as a clerk in the Exchange hotel, Pittsburgh. When Mrs. Kaber, her daughter, Marian McArdle, and her mother, Mrs. Mary A. Brickell, were indicted for the murder of Daniel F. Kaber, Utterbach informed County Prosecutor Stanton that he would be present as a witness for the state at their trials.

Utterbach was the first person to reach Kaber in answer to his cries after he had been stabbed.

The state charges Utterbach heard Kaber say as he lapsed into unconsciousness, "My wife ordered this done."

Taking testimony was to be resumed in Mrs. Kaber's trial today. The state will call several doctors who will testify regarding the mysterious illness with which Kaber was afflicted.

It is expected that later in the trial Moses Kaber, elderly father of the murdered publisher, will be recalled to the witness stand.

Some people consider it wrong to marry for money, yet all ministers do.

INVASION OF ELKS PIGGLY WIGGLY TO INTO SOUTHLAND IS UNDER WAY OPEN STORE HERE ON SATURDAY

'Dear Katie' Learns About
'Brother Deers' Who Will
Frolic in Los Angeles

Glendale, July 8.
Dear Katie—The Elks are comin'! Now at this astonishin' bit of news in 4 words, I don't imagine as how you'll fall off the front porch in a dead faint. It just means about as much to you, back there in Oshkosh, as if I said as how Cuba has gone dry.

But Katie, when I tell you as how there is 100,000 Elks comin' to these parts for a week of fun, frolic and festivities, maybe you'll begin to come out of your trance long enough to open your mouth and eyes in awe and surprise. And Katie, do you know what a big number a 100,000 is? Well, for the example, if you had a \$100,000 in the bank drawin' interest for 30 days, do you know what you'd have? You'd have a home in Glendale and a strivin' reporter for a husband in less time than that.

And then we would buy a well Katie, as I have said, the Elks are comin'.

From far off Maine and Florida, the faithful Elks have heard the call.

They're comin' in autos and airplanes, on bicycles and rail roads and on foot and on horse back.

And every Elk is a Bill.

There will be bills to pay and bills to pay.

There will be more Bills than Woolworth's got dimes.

They're comin' to this land which they've heard about, talked about, read about, sung about, dreamed about and that's about all.

They're comin' to work and play, swim and dance, ride and march, sing and laugh and everything. They're comin' to see the movie world, the bathin' girls, the orange groves, Charlie Chaplin, the Palsades, the ostrich farm, Mary Pickford, the oil wells, the Pacific ocean, the speedway, the mountains, the perfect roads, the flowers, the sunshine and GLENDAL E.

And when they see Glendale they'll figure as how they're come to the end of the trail and they will set on our cool verandas, which the same is swept by the hired girl and the ocean breezes and they'll try to figure out why they was chumps enough to ever of bought a round trip ticket, back to the "old home."

But when they do go back, they can tell their neighbors some wonderful fairy tales about our beautiful California. Ain't it so Katie?

Will Learn About Hospitality
And that mighty herd of Elks is goin' to learn the definition of California hospitality.

They are goin' to have excursions, picnics, luncheons, fireworks, carnival balls, moving picture parades, airplane rides and a parade with fifty bands of perpetual music.

The Elks are comin' from every town and every state, includin' 4 from Champaign, Ill., 7 from Port, Okla., 6 from Sherry, Texas, and 9 from Brandywine, W. Va. (I bet that will be a popular bunch of mixed drinks.)

And the city of Glendale will open its doors to 50,000 visitors and throw away the key. Glendale will shine in the big parade like a star on the constable's breast. Glendale will be there with a 30 piece band, a drum corps, a '49 stage coach, a elephant and Hoot Gibson of Universal City with 12 mounted men.

Glendale is goin' to have a float which for beauty will startle the natives themselves. It's goin' to be a (censored) made out of (censored)—well Katie, I wasn't tell about it yet. It's a secret.

Anyway there's some mysterious doin's goin' on over in back of the Elks' Club House right here in Glendale. More anon.

Yours in advance,
E. C. HALE.

Twelve Millions For This Missing Cowboy

CHICAGO—Twelve million dollars today awaits Charles Edgar Spencer Churchill, cowboy from Calgary, Canada, according to word received by the Chicago police. "Ned" Churchill, as the cattlemen know him, disappeared December 19, 1919, while en route to Chicago with twenty cars of cattle, and has not been heard from since. He fell heir to the XC ranch when his father died.

MANY SUCH INSTANCES

Jud Tunkins says now and then a man gets gloriously located in the Hall of Fame who had difficulty during his life in paying room rent.

Manager and Superintendent
Both Glendale Residents;
Reduction in Prices

An important addition to Glendale's business district will be the opening of the Piggly Wiggly grocery tomorrow at 115 South Brand boulevard. By reason of their low overhead cost, due to the enormous purchasing power of their 900 stores throughout the United States, they are able to put goods on their shelves in many instances at greatly reduced prices.

That the Piggly Wiggly system meets with the approval of California marketers has been amply proven. Starting in this state less than eighteen months ago, there are now twenty stores in the vicinity of Los Angeles selling almost two and one-half million dollars worth of goods a year.

Residents of Glendale

Both W. D. Moffett, manager of the local store, and W. E. Blizzard, superintendent of stores, are residents of Glendale and intend to make this city their permanent home.

"I am delighted at the opportunity of working and living in Glendale," stated Mr. Moffett today. "It will be my endeavor to make this latest addition to the Piggly Wiggly family, which will be known as store number seventeen, live up in every way to the high standard of efficiency set by the other units of our organization."

Piggly Wiggly stores are conducted along the same line as is the modern cafeteria; that is the goods are conveniently placed before the customer with the prices plainly marked, and the customer simply helps himself or herself to whatever is desired. In this way long delays are avoided during the rush hours, as is also the additional expense of a large number of clerks and attendants. This extra saving is given to the customers in the reduced price of the goods.

Pays Tribute to City

W. E. Blizzard, general superintendent of the stores, is also an ardent booster for Glendale. Mr. Blizzard, who in his many trips to the various stores, has an unusual opportunity of comparing the merits of the different cities, selected Glendale as his permanent home.

"We made a thorough investigation of Glendale before we decided to establish a Piggly Wiggly store here," stated Blizzard, "and we were soon satisfied that this was the place for our next investment, having a purchasing power of cities many times its size. Service will be the watchword of our new store. Each of as many customers as may desire to come into our store at one time, walks into a store that is to be regarded by all persons, individually and collectively, as their very own store. It is a store for both the poor man and the rich man, and each will depart equally well pleased."

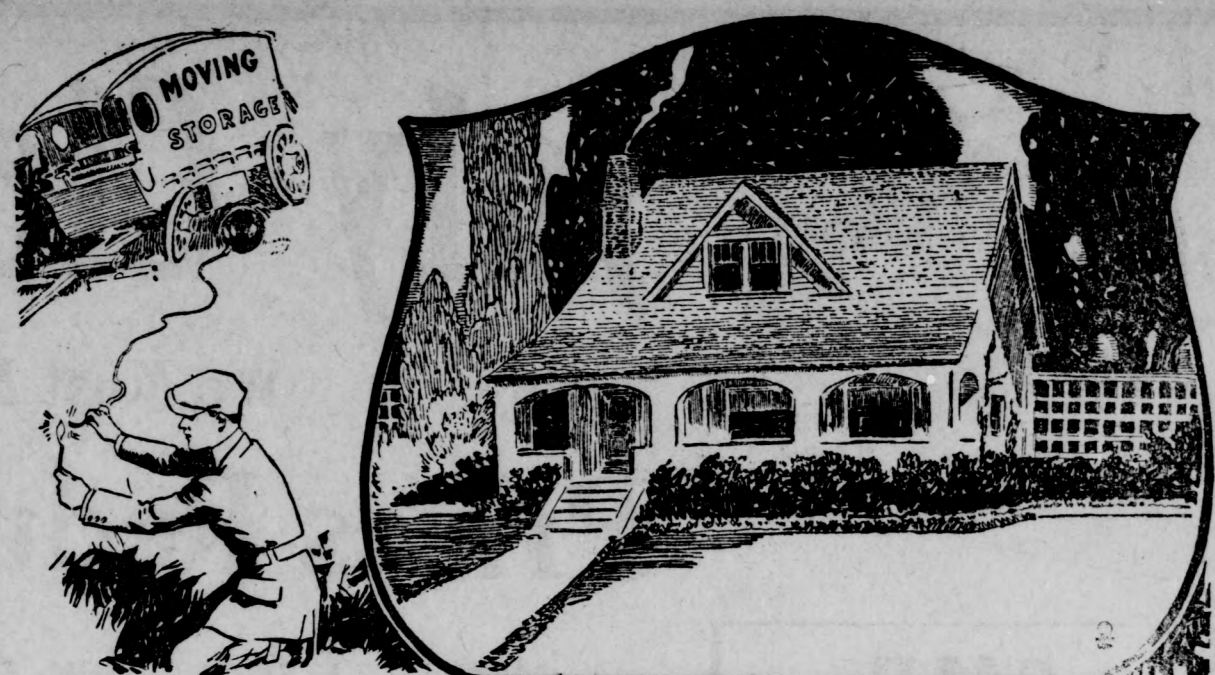

Mr. and Mrs. Ingledue Entertain Methodists

Mr. and Mrs. C. W. Ingledue of 501 East Wilson avenue entertained a group of Glendale Methodists at dinner Tuesday night, for the purpose of interesting them in purchasing Founders' certificates in the Pacific Palisades, a beautiful 1100-acre tract of land to be purchased at Santa Monica for the purpose of erecting a great tabernacle for the annual Methodist camp meetings held there each spring. The Founders' certificates will cost \$1000 each and as soon as a certain number are sold Founders' Day will be celebrated on the property. At that time the corner stone of the tabernacle will be laid and the "Founders" will be given first choice of lots at the first appraisement price. After the founders have secured their lots there will be a reappraisement and the remaining lots sold. The price will cost from \$400 up, and should a founder purchase a small lot the difference between the price and the \$1000 will be returned to him with 6 per cent interest.

Rev. C. H. Scott of South Pasadena, and Rev. Baker of Huntington Park, represented the Pacific Palisades at the dinner. Others present included Mr. and Mrs. W. H. Reynolds, Mr. and Mrs. Clendenin, Mr. and Mrs. J. F. Swisher, Mr. and Mrs. S. H. Malarkey, Mrs. Palmer, Will Nolan, Miss Esther Nolan, Mr. and Mrs. T. A. Wright, Mr. and Mrs. Edwin Murphy, Rev. C. M. Crist, Mrs. Whitney, Miss Doris Ingledue, Miss Helen Ingledue and Ellwood Ingledue.

CUTTING CHILDREN'S EARS

It is a senseless practice to cut children's ears, and arises from a foolish superstition. Many years ago it was thought that backward children could be cured by making an incision in a certain part of their ears. The belief exists in some parts of the country today, the operation being performed usually by a woman at the change of the moon. Needless to say, it results only in pain and misery for the child.

No More Moving Vans for the Home Owner

If everyone religiously adopted the "Own Your Home" slogan there would be no official moving days, nor excuses for moving vans and the like. Vans would be as obsolete as the horse driven street cars.

For once in your own home you would never move therefrom. Why pay exorbitant moving bills every year or other year, just because you're forced to do so. No more work and trouble of moving.

With lowered costs of material and labor now in effect let us show you the wisdom of owning your home right now.

Have you taken advantage of our free and helpful service? If not, come in—we can be of service to you.

Economy In Food Selections

Real food economy means selection of those foodstuffs which contain the highest percentage of nourishing units. Chief of this class is milk, cream and buttermilk.

"PROPERLY
PASTERIZED MILK"

Is another step in food economy, one which every housewife and mother should welcome. For, not only is it made purer than when freshly milked from healthy cows, but it will stay sweet much longer than "raw" or unpasteurized milk.

Noted Ones Reply To What To Eat Question

SAN FRANCISCO—Following the prediction of Frederick W. Constantine, secretary of the general assembly of spiritualists of New York state, that through spirit communication the world will soon be ruled by the greatest minds of past ages, Swami Ahilbi Oujah, San Francisco medium, today announced that he had succeeded in establishing the necessary connections with the "supreme council" of the spirit world.

The question propounded by the Swami, for the purpose of experiment, was an elemental one, he stated, relating to the daily routine of life.

"What shall I have for breakfast?" he inquired of the past's greatest minds.

Here are the replies as he reported them:

Abraham Lincoln—Before eating breakfast, split a cord of rails. And do not take sustenance from the hands of unemancipated servants.

George Washington—I cannot tell a lie. I don't know what you ought to eat for breakfast.

Napoleon Bonaparte—You don't have to eat breakfast. I did without mine at Waterloo.

Julius Caesar—All breakfasts are divided into three parts—the order, the eating, and the paying. Of these the paying is most powerful.

Solomon—It doesn't make any difference what you eat for breakfast—only don't eat it with your wife. Take a tip from me and Fannie Hurst.

Robert Ingersoll—What's the use of eating breakfast at all? It only prolongs life. There is no God, and he has too many prophets.

Theodore Roosevelt (who evidently failed to catch the question)—Dec-lighted, I'll meet you at any restaurant you name.

The question was then opened for discussion, the Swami said, and at last report the supreme council of spirit minds was still in session.

Explorer Will Again Enter Frozen Regions

SEATTLE—Captain Joseph F. Bernard, scientist-explorer, was for four years ice-bound in the frigid wastes of the Arctic.

Bent on out-Vilhjalmur Stefansson, he is going back for more. He is now on the way to Nome, Alaska, to equip another expedition to study the anthropology of the frozen regions.

Commanding the schooner Teddy Bear, Capt. Bernard set out from Nome in 1916, proceeding to Coronation gulf, 1400 miles to the north. Here the heavy ice hemmed in the vessel which was turned eastward along the Arctic islands. On August 18, 1917, off Taylor island, the Teddy Bear was frozen fast in the ice, and there it remained, according to Capt. Bernard, until September, 1919.

So Capt. Bernard had plenty of time to make observations. Here are some that he made:

That the Arctic peoples are being exterminated by disease and contact with civilization.

That food and clothing producing caribou are becoming extinct, and that within ten years the Canadian government will be forced to provide for their subsistence.

That wars between various tribes and custom of retaining women captives gave all the Arctic region a common language-base and similar customs.

Warning Is Issued To All Alien Residents

SAN FRANCISCO, July 8.—Aliens who fail to register as required by the alien poll tax law and who fail to pay the tax by August 1 may be denied citizenship if they apply for papers in a federal court.

This was the warning issued by Judge W. W. Morrow of the United States circuit court of appeals.

His warning followed an announcement in federal court by George A. Crutchfield, chief naturalization examiner, that he would challenge the application for citizenship of any alien who had not registered and paid the tax.

Judge Morrow said in reply that it was only fair to warn the aliens of the government's stand, but added that he was not passing on the constitutionality of the law and that any alien had a right to make a legal test of the law. If the law holds, however, Judge Morrow indicated, failure to have complied with it can be considered a ground for challenging an alien's qualifications for citizenship.

Anthracite coal was first used as fuel in 1808.

Pick 'Em For Others, But Not For Himself

LOS ANGELES—Martha A. Padley doesn't understand the principles of advertising, nor how unpleasant misdirected publicity can be.

Benjamin W. Padley, Martha's husband, thinks so at least. Benjamin runs a matrimonial agency.

Martha is suing him for divorce. Not only that, but she is telling the world the things Benjamin doesn't know about matrimony.

It's all being threshed out in Judge J. Perry Wood's divorce court, a setting not new to either Benjamin or Martha. They were divorced once before. That was immediately after the police had locked up Benjamin's love brokerage office on complaint of neighboring tenants, and incarcerated its proprietor and several of his too affectionate clients for a time.

The Padleys, however, remarried, and once more the marriages-to-order shingle was hung out on Benjamin's doorstep.

All would have been well, probably, if Mrs. Padley had not overheard her spouse make an untimely, not to say tactless, remark to the effect that while he could pick 'em for other people all right, he'd certainly made a poor choice in the matrimonial grab bag himself.

ITALY NOW SEEKING
COMMERCIAL AID
FROM GERMANY

New Complications to Rise for
Allies; Propaganda Is
Used Effectively

By HENRY WOOD
United Press Staff Correspondent
ROME—Fresh complications for
the allies in the very near future are
now rapidly brewing in the intense
propaganda being carried on in Aus-
trian Tyrol for annexation to Ger-
many.

The supreme object to be attained
by this is to give Germany and Italy
a common boundary—something
that has been the dream of Italian
and German statesmen ever since the
two countries attained their national
unity.

As a signatory of the Versailles
treaty, wherein she has pledged her-
self to oppose any annexation of
German-Austrian territory to Ger-
many, Italy, officially at least, is
obliged to maintain a negative atti-
tude in the intense propaganda
which is now under way in Austrian
Tyrol.

However, Italian statesmen and
politicians are unable either to deny
or conceal the fact that if by one
means or another this little strip of
Austrian territory lying just north
of the Italian border at the Brenner
pass and just south of Munich should
become a part of German territory,
the advantages to Italy would be al-
most incalculable.

At Mercy of England
One of the eternal nightmares
from which all Italian statesmen
suffer is that of the manner in which
Italy is at all times at the mercy
of England because of the latter's
control of the Mediterranean. Italy
as a maritime power is dependent
for her national existence on her
ability to keep up sea commerce with
the rest of the world, especially for
the importation of coal, wheat and
other essentials for her life.

Yet with England controlling both
the western entrance to the Mediter-
ranean to Gibraltar and the eastern
at the Suez canal, she could at any
moment cut off Italy from all com-
merce with the rest of the world
and reduce her to starvation and
terms in a very few weeks.

Principal Consideration
The thesis of nearly all leading
Italian statesmen has therefore al-
ways been that Italy's national safety
and existence depended upon connec-
tion with some northern country that
could always insure an outlet for im-
portations. Manifestly, the country
best situated to do this is Germany.
And this was one of the principal
considerations in Italy's membership
in the Triple Alliance before the
war as well as the principal motive
back of all Italian statesmen who
hesitated in the matter of Italy's
taking sides with the allies during
the recent war.

The treaty of Versailles reduced
the territory which separates Italy
from Germany to an almost incon-
siderable strip. The population is
overwhelmingly German and it is
amongst this population that Ger-
many is carrying on an only too wel-
come propaganda for annexation to
Germany.

Constitutes Barrier
The lack of a common frontier
both the German and Italian econo-
mists point out constitutes the
greatest barrier to reciprocal econo-
mic development and relations of the
two countries, which would require
a customs union. The propaganda
now being advocated is that the
Tyrol could be formed into an au-
tonomous province and annexed to
Italy for the sake of the common
frontier and reciprocal economic ad-
vantages.

The propaganda to this end is be-
ing carried on in such a manner that
the situation created thereby can
hardly escape much longer consid-
eration by the allies.

Englishmen Are Now
Popular In Germany

By CARL D. GROAT
United Press Staff Correspondent
OPPELN, UPPER SILESIA—The
one-time German hate of England
has turned to something akin to
love. Proof of this is to be found
anywhere amongst the German pop-
ulation of Upper Silesia. One needs
only to ask a German what he
thinks about the English attitude to-
ward Germany in the Silesian ques-
tion to learn that he is highly pleas-
ed. And one needs only to see how
the German, for the most part, has
willingly obeyed any and all com-
mands or wishes of the English con-
trollers to learn that the hymn of
hate has turned to praise.

And, while the Englishman hasn't
learned to love the German, he has
a better feeling for him hereabouts
than he has for the Pole or even for
his allied brother, the Frenchman.
In fact, the relations between
Frenchmen and Englishmen in this
neck of the woods are about as
pleasant as those of a couple of
strange bulldogs, even though the
outward conduct and proprieties are
observed.

I talked the other day with a high
English officer in one of the un-
pleasantest communities of this
whole topsyturvy district.

"The Germans were threatening
to start an offensive, and were even
talking of beating up the French,"
he told me. "I overheard the con-
versations, talked with the German
headquarters in Oppeln and with the
city authorities. All assured me
they would give orders to subside.
And, do you know it is remarkable
how quickly they quit and went
home when they heard that the Bri-
tisher wanted that."

Then there was the case of Maj.
MacKay at Gleiwitz. The Germans
were threatening a clash with the
French who had already brought out
tanks, MacKay came out, talked a
moment to the crowd, who, to his
embarrassment, carried him away on
their shoulders, and then finally, up-
on his urgent request for dispersal,
went back home leaving the excited
Frenchmen with nothing to do.

Still another similar incident oc-
curred to an English colonel, who
told me afterward, "I can't love the
Germans—far from it for they killed
three of my brothers in the war. But,
the situation here is simply driving
me into their arms."

Still another told me, "The Ger-
mans will do whatever we want them
to. They have shown good restraint
and discipline on the whole and have
surely striven to meet our wishes and
orders."

And, when one talks with Ger-
mans, he learns that they have the
greatest affection for the English sol-
diers.
It's somewhat picturesque to see a
"Jock"—one of the Black Watch
soldiers—fraternizing with a German
"Apo"—or plebsicite policeman—
over a glass of beer. But it happens.
And, it's another picture to see on
the road from here to Stubendorf a
stolid German and his frau giving a
few Jocks a "lift" on their ancient
haywagon. And, yet again, it's a
picture to see a Britisher trying to
teach a German the intricacies of so-
cer football. Or to see children and
women showering the highlanders
with flowers on their way through
Oppeln.

Movie Houses Started
By Soviet, Is Reported

NEW YORK—Trains equipped
with motion picture machines and
films are being run through Siberia,
giving exhibitions at each railroad
station, according to Julius Kohner,
Czecho-Slovakian cinema authority
and publisher of "Filmschau," one
of the well known international trade
journals, just arrived in this country.
The Soviet government is strongly
in favor of the development of mo-
tion pictures and is paying great at-
tention to the community effects of
"movie" theatres, he says. The
Lenin-Trotsky government has en-
couraged the erection of picture play
houses, which are operated by a
commission of the Soviet govern-
ment.

There are today some 3000 pic-
ture houses in Russia and more are
being added constantly, Kohner de-
clares. A very large opening awaits
American pictures in Russia as soon
as trade agreements are established
between that country and the United
States. Virtually no production is
going on in Russia.

Glass Is Destroyed
To Kill Beer Signs

BUFFALO—Destruction of thou-
sands of dollars worth of fancy stain-
ed glass that adorns Buffalo's erst-
while saloons depends on a decision
soon to be made by City Judge
Woltz.

Recently a police captain was
passing a soft drink establishment
that at one time was one of Amer-
ica's many watering troughs and his
eagle eye caught sight of a sign
which had been worked into the
stained window. The sign read:
"Wines and Liquors."

The captain arrested the proprie-
tor of the establishment and he
pleaded guilty of having art glass
bearing such legends. It was argued
that such signs are now against the
law and Judge Woltz took the case
under advisement.

Should the judge rule that the
sign is unlawful, it will mean that
hundreds of similar fancy glass signs
that now embellish soft drink places
that—once were saloons—will have
to be destroyed.

This Couple Receives Many Spirit Visitors

PEORIA, Ill.—William Hawley Smith and his wife announced recently that among their spiritual visitors are Bill Nye, James Whitcomb Riley, Bob Burdette, various pupils of Wagner and an unidentified musician who is giving spirit lessons on the violin to a boy from Urbana, Ill. Mrs. Smith recently came into unusual prominence when she displayed a painting which she claims was directed by the spirit of Whistler. She had painted before, but rather indifferently. But the Whistler painting is pronounced a remarkable bit of art by experts and they willingly accept the theory that Mrs. Smith's hand was directed by the spirit of Whistler.

William Hawley Smith has written books, but never attempted poetry. In 1880 he toured the lyceum circuit with Bill Nye. Recently, according to the latest bulletins from the Smith residence, he held jocular communion with the spirit of Bill Nye and while he propounded questions, his wife and a friend picked from the outboard a poem from the spirit land, entitled, "Why We Changed Our Minds."

Through the same medium Riley sent back a poem describing briefly the "Wonderful Plane of the Afterland."

The Smith living room is not a rendezvous for soggy art or new "jumping jack" poetry or of any freaks that dart off into trances. The Smiths are delightful people, of high intelligence and are very popular with their large circle of acquaintances. For this reason more than unusual attention is being given to their announcements that they are in touch with disembodied spirits which cause them to paint and write poetry.

Food Prices Beginning To Fall In Germany

BERLIN—A slight sinking of prices for the most important foods is noted in the German markets. Statistics show that with the exception of bread, the necessities have dropped about 15 per cent since the first of the year. Bread and coal, however, cost slightly more than on January 1.

Butter was released in June from government control, with the result that considerable can now be purchased in the stores openly and at lower prices than previously. The price dropped within a few days from 35 marks to 22 marks a pound. Restrictions on rationing of milk have also been decreased, though a certain governmental control is still maintained so that the poor may not be victims of profiteering and so that they may be assured a proper quantity of milk for their children.

Clothing Shows Big Drop From War Peak

CHICAGO—Men's clothing and furnishing goods have dropped 25 to 30 per cent from the peak of war prices, according to compilations made by the National Association of Retail Clothiers and announced today. The association figures were obtained from a questionnaire.

Only 6 per cent of the merchants showed depreciations as low as 25 per cent, while 41 per cent report 33-1-3 to 40 per cent reductions. Eleven per cent reported 40 to 50 per cent depreciation in prices.

The survey was made by the association to prepare a reply to the Federal Trade Commission and to industrial organizations, which, according to association officers, had criticized retail clothiers for insufficient price reductions.

WHY CITY CHARGES FOR COLLECTION OF GARBAGE

Public Statement Authorized by Council, Giving Facts for Change in Plan

(Continued from Page 1.)
them to continue gathering the garbage and waste matter at that figure. The volume had greatly increased owing to the growth of the city during the last year and a half and the value of garbage for hog feed had greatly decreased.

Advised for Bids
"The city advertised for bids and the best figure obtained was a proposition to gather the garbage for \$500 per month, leaving the city to gather the tin cans and waste matter which would cost an additional \$200 per month.

"It was decided that the city should purchase the necessary equipment and gather the garbage direct, selling the garbage to private parties for hog feed. This necessitated the purchase of a truck and owing to the fact that provision was not made in the budget to take care of this expenditure, the truck was purchased under contract, payment of \$266.25 to be made per month. These payments will be provided for in this year's budget.

"It was estimated that it would cost \$500 per month to operate this truck which would gather the garbage and a portion of the tin cans and waste matter. It was also estimated that a portion of the time of an additional truck would be required to gather the remainder of the waste matter. The cost of this was estimated at \$100. At that time it was costing approximately \$200 per month additional to gather papers and rubbish in the business district, making a total monthly cost of \$1,066.25 for gathering and disposing garbage, waste matter, waste paper and rubbish including payments on the truck as set forth above. Against this would be credited approximately \$100 per month—receipts from the sale of garbage. In this would be included \$200 as the estimated cost of gathering the tin cans and waste matter, \$200 per month for gathering the rubbish in the business district and \$266.25 as payment on the truck, leaving the net cost of gathering the garbage \$300 per month which was \$200 less than the best bid received for gathering it under contract and \$100 per month more than it was costing under previous contract.

Funds Not Available
"This additional expense for gathering garbage, waste matter and rubbish and the purchase of equipment had to be undertaken by the city at a time when funds from taxation to meet such expense would not be available by reason of the fact that no large amount of taxes for the current fiscal year is received until about four months after July 1, the beginning of the fiscal year. This applies as well to all other service rendered by the city, the expense of which is to be paid for from general tax.

"During the past several years an effort has been made to accumulate a cash balance in the treasury to carry the city through this period. There has been accumulated about \$20,000 in this way which has helped out greatly during this period.

"Article 11 of the charter provides in Section 15 for a general reserve fund, the purpose of which is keeping the payment of the running expenses of the city on a cash basis. This fund is to be maintained in an amount sufficient to meet all legal demands against the treasury of the first four months of the fiscal year. All unexpended balances in the general budget of the previous fiscal year shall be transferred to this fund until such fund has reached an amount equal to 30 per cent of the total amount of the general budget for that year. This is in fact a continuation of the policy under which a substantial reserve has already been accumulated and by careful financing through this policy, the city within a few years may be placed on a cash basis. The present amount in reserve, however, is insufficient to take care of expenditures during the first four months of the fiscal year. It was therefore thought best that a small charge be made for gathering the garbage during the first six months of the fiscal year which would amount to \$2 for the average household during that period or 33 1-3 cents per month.

In Business District
"It was also thought best to charge for gathering the rubbish in the business district. This, however, was not to be a temporary arrangement as the gathering of papers and waste matter in the business section is a direct service to the business establishments that is usually taken care of by direct charge whether the city renders the service or private parties are engaged therefor. The charge for gathering garbage is temporary and only for the first six months of the present fiscal year. "If the above statement meets with the approval of your council, we would recommend that the same be published and distributed to all those receiving scavenger service."

STATES PROVISIONS ON APPOINTMENT OF OFFICIALS

City Manager Gives Outline of Duties as Provided by Charter Sections

(Continued from Page One)
points that can be made by the councilmen, the other appointments being made by the city manager, subject to the council's approval.

Duties Are Outlined
Here is the city manager's communication on the subject:

"Pursuant to verbal request of Tuesday evening, the 5th instant, I submit the following in regard to the appointment of city officials and employees as provided for by charter: "Article 6 outlines the powers and duties of the council; sets forth in section 5 that the council has power to appoint a city assessor, which office may be combined with that of city clerk, a city tax collector, a police judge, a city attorney, a city manager and five library trustees."

"Article 9, which outlines the duties of city manager provides in section 2 that one of the powers of the city manager shall be to appoint, except as otherwise provided in this charter, all officers, heads of departments or divisions, and all deputies, assistants and employees in the several departments and offices, and to remove same. Such appointment and removal shall be subject to the approval of the council and shall not be effective without such approval."

Miscellaneous Provisions
"Article 23 containing miscellaneous provisions sets forth in section 19 that 'all officers, assistants and employees in office, when this charter takes effect, shall continue to hold and exercise their respective offices or employment, under the terms of this charter, until the election or appointment and qualification of their successors.' "Section 18 of miscellaneous provisions provides that 'all ordinances and resolutions in force at the time this charter takes effect, and not inconsistent therewith, shall continue in full force until amended or repealed.'

"Ordinance No. 447 adopted by the board of trustees May 31, 1921, provides for the salaries of city officials and employees and sets forth the classification and number of employees to be employed in the several divisions. Employment cards have been made out for all regular city officers and employees provided for in this ordinance. We assume that under the provisions of section 19 of article 23, quoted above, these employees will continue to serve in their present capacities at the salaries fixed in such ordinance until the appointment and qualification of their successors. The charter requires very few changes in the present order. The office of controller as provided for in the charter has not been provided for by Ordinance No. 447. "Under the provision of section 19 of article 23, quoted above, we take it that it will be the duty of the city manager to recommend to your council the appointment of controller. This should be done within the next two or three weeks so that the controller may be in position to take charge of the accounts of the city by the time the budget and appropriation resolution provided for in section 7 of article 11 is adopted by your council."

CENTURY OLD, STILL SHOWS INTEREST IN LIFE TODAY

W. H. Downing Tells of Some of His Experiences in the Days of Long Ago

(Continued From Page 1.)
age in those days. Remember, this was in 1835.

Casts Anchor Ashore
Some few years after starting his life as a sailor, Downing decided to try his luck ashore. At the age of 20 he apprenticed himself out as a carpenter. No five and a half day week then, nor any eight-hour day. From 6 to 6 in the summer and from 7 till dark in the winter did he work, six days a week. And on Sundays did he lie abed until the sun was high in the heavens? He did not. At 6 in the morning he was out of bed preparing to go to church.

And did he get \$7 or \$8 a day? For the first year he received the large sum of \$60, together with his board. And when he was a first-class mechanic he received a dollar a day. There were no unions then, but "Daddy" Downing says he thinks they are a good thing.

For the next few years we find him quietly engaged in carpentering, but with the news of the discovery of gold in California the hand of adventure once again beckoned, and true to his nature, he heeded the call. As soon as he could settle up his affairs he set sail for "The Land of Promise," coming by way of Panama in 1852. Here, led by tales of gold, he and his companions adventured out of the beaten path, and were lost in the jungles, surrounded by hostile savages and wild animals for several weeks.

Comes to Golden State
Finally arriving in California, he visited his brother who had come to the coast in '49. Shortly after his arrival occurred what he describes as the most important event in his life. In Santa Rosa he married Frances Mock, whom he believes to be a relative of a prominent Glendale family by that name.

After his marriage Mr. Downing engaged in various enterprises. For a while he followed his trade as a carpenter, and later engaged in the livery business and other mercantile pursuits.

He has one son living, Frank Downing, who is engaged in the electrical business in Berkeley; a grandson, Dr. E. F. Morgan, a dentist in Los Angeles; and three great grandchildren, the children of Dr. Morgan. "Up until the time of the influenza epidemic three years ago, Mr. Downing had suffered but little from sickness. A severe attack of the "flu," however, left him in a weakened condition and he came to Arbor Rest in Glendale two years ago. Here he has greatly improved and is as active and spry as some of the patients many years his junior. He sweeps the walks and exercises in other ways every day that the weather permits. Local doctors who have examined him declare that he has the physical strength and appearance of a man of 75 years.

Moderation and No Worry
To no particular mode of living does he give credit for his longevity. He has never placed any restriction upon his diet, eating that which pleased him. He smokes, but in moderation. And while he can tell the difference between a cocktail and champagne, he says that he does not care for strong liquor, but admits a fondness for an occasional glass of light wine. In fact, moderation in all things appears to be his watchword. Moderation and freedom from worry he believes are conducive to an old age.

"I have never been sued in my life," the coming centenarian declared. "Nor have I ever had an officer put his hand on my shoulder and say, 'I want you.' I have never worried over financial affairs, nor, since I was a young man, have I ever raised my hand in anger against my fellow man. Outside of that, I have lived the life of the average man. Oh, yes, I like good-looking women. I never knew a sailor yet that wouldn't kiss a pretty girl every chance he got. I don't think a man ever gets old as long as he likes the ladies."

Big Birthday Party
Another thing that might be said to contribute to his unusual age is the fact that he is a progressive. He does not think that "the country is going to the dogs," but, on the contrary he believes that it is getting better every day.

Next Wednesday, out at Arbor Rest, on Lexington Drive, they are going to have a big birthday party for "Daddy" Downing. There will be a cake with a hundred candles, and all the fixings that go with birthday parties for both young and old.

And when it's all over he will go back to his armchair, under the rose-covered arbor with the late afternoon sun filtering through.

Romance and adventure at 14; an armchair and roses at 100!

Chapter Members Meet for Final Gathering

Twenty members of Chapter A. H. of the P. E. O. gathered at Monte Vista Park Wednesday for the final meeting of the year. The business meeting took place out-of-doors, and following the picnic luncheon the ladies went to the Monte Vista Home for Mal-nourished Children and spent the afternoon working on the room they are furnishing there.

The furniture in the room is white enamel and the walls and draperies cream with pink and blue creton side drapes at the windows. A pink and blue creton bedspread and cushions complete the dainty furnishings and make the room very cheerful and attractive. The next meeting of Chapter A. H. will be held the first Tuesday in October.

Take Full Charge of Glendale Homes Firm

S. C. Kinch, of the Glendale Homes company, formerly located at 293 North Brand boulevard, with F. W. Furbeck of the Furbeck Art Studio, has recently taken over the firm, which is now located in Mr. Furbeck's studio at 215 South Brand boulevard. The newly-organized company will conduct a general real estate and insurance business at their new headquarters.

L. T. Rowley Happy to Escape From Heat

L. T. Rowley, formerly of Sunland but now living at 336 Vine street, this city, visited his old home on Wednesday, but was glad to return to Glendale. He reports that at 2 o'clock in the afternoon the thermometer registered 109 in the shade, which, as he says, is "some heat."

Edith Hallor Now at Glendale Theatre

A photoplay that has all the elements of good drama is to be shown at the Glendale Theatre tonight, when Edith Hallor, in Jules Eckert Goodman's play, "Just Outside the Door," directed by George Irving, opens a day engagement. In addition to the star, famous playwright and well-known director, this production has a cast which contains such names as J. Barney Sherry, Betty Blythe, and Ida Lewis, all known wherever photoplays are shown.

The combination of star, author, director and players seen in this production is most unusual, and the results on the screen will prove a source of satisfaction to the patrons of the Glendale Theatre.

Food Specialist Has Established New Store

Charles Horace Darling, food specialist, has established a store at 415 East Broadway, Glendale. Mr. Darling features "Honey Nut," a product, descriptive of its name but later will add coconut-ice cream and other original food preparations of a confection character. The products of Mr. Darling are being used by the cafeteria departments of the schools and have, according to him, been fully investigated by the Los Angeles Chamber of Commerce whose approval they have received.

An eastern circus organization will tour the country this year in motor trucks costing from \$12,000 to \$30,000 apiece. It is estimated the saving in rail charges will go a long way to pay for this equipment. The motorized circus will be able to travel anywhere and, being independent of train service, may make towns not often visited by large shows.

Special Program At First Congregational

A special musical program has been arranged for Sunday night at the First Congregational church, beginning at 7:30 o'clock, by Mrs. Charles A. Parker, musical director. The regular choir will be assisted by Mr. McClintock, baritone, a church singer from the east who has just recently come to California. Miss Frances Payne will give a violin solo. There will be vocal selections by the ladies' quartette and the male quartette. The anthem "The King of Love My Shepherd Is" will be given, with trio by Charles Comfort, Mrs. L. B. MacMullin and Mrs. C. A. Parker.

Additional Elders And Deacons Are Selected

At a congregational meeting, held immediately after the conclusion of the regular Wednesday night prayer meeting, at the First Presbyterian church, it was unanimously decided to increase the number of elders from fifteen to twenty-one and the deacons from fifteen to twenty-four. John Horsch, H. L. Tepe and J. W. Cooper were elected additional elders, and F. A. Buck, J. B. McAllister, W. C. Harris, W. B. McLaughlin, S. A. Forrester and J. H. Culver were added to the list of deacons. Six vacancies among both the elders and deacons were left open for future election.

The ceremony was performed in Orange county by the Rev. C. J. K. Jones. The place of their honeymoon is being kept secret.

Vandals in Church

Vandals entered the Church of the Redeemer, Presbyterian, and after defacing the walls and cutting the telephone connections, placed oil-soaked rags and kerosene throughout the church. Police believe that it was the work of arsonites who were frightened away before accomplishing their purpose.

Dismiss State Official

Clarence W. Peck, acting superintendent of the Pacific Colony for morons at Walnut, has been dismissed by the local board of control of the school. Peck declares that no charges have been placed against him and that his dismissal is a result of politics.

R. F. McClellan of Sawtelle has been picked to succeed Jonathan S. Dodge as chairman of the Board of Supervisors of Los Angeles county. Dodge has resigned to accept the position of superintendent of state banks, to which he was recently appointed by Governor William D. Stephens.

CONTROLLING DREAMS

There does not seem to be much doubt among mental specialists that dreams can be controlled to a certain extent. Don't have "downy" pillows, which cause too much heat. They should be low, thus relieving the work of the heart. Windows should be left wide open. Let nervous children have a night-light. These are among the hints given by an expert to those who would have pleasant dreams.

VAUDEVILLE TO BE GIVEN SATURDAY AT GLENDALE

Varied Program for Feature Attraction; Picture Bill Included Noted Actor

Another big Melkjohn and Dunn vaudeville road show arrives at the Glendale theatre tomorrow for three performances, matinee and night.

Headlining the program this week is the comedy act, "Hiram's Day Off." But the name has little to do with the act, for it is one of those sketches that is abounding with humor throughout. Singing and dancing is also featured in the act. If ever Glendale has laughed itself "hoarse" that feeling will again return for Richardson Brothers and Charlie start with a laugh and end with a laugh.

Next comes the Northern Comedy Four, a quartette of singers who have a good line of comedy to deliver also. They were a distinct hit at San Francisco last week and were brought here especially for this engagement.

The Swiss Alpine Trio, direct from an extended engagement at Grauman's Million Dollar Theatre, is also included on the vaudeville program. They not only play instrumental music of the highest order, but are high class yodelers as well.

Ann Vivian and company will present a clever western novelty act thrilling and exciting from start to finish.

All in all the program will give plenty of variety and is said to be the best offering yet sent here by Melkjohn and Dunn.

In addition to the vaudeville the special feature picture, "The Servant Question," starring William Collier is to be presented.

The regular prices will prevail for this double program, there being no advance. A bargain matinee will be given at 2:30 o'clock when balloons will be distributed to the children free.

Picture Is Amusing

William Collier, light comedy star, is featured in "The Servant Question," a select picture.

Collier as a bogus butler on the trail of a trio of diamond thieves, is said to be as amusing as Collier at his best on the stage. The photoplay is declared to be crammed full of laughs and calculated to make one forget that the cook just served notice. Of course Mr. Collier is most

TWO BROTHERS OPEN NEW DRUG STORE IN GLENDALE

J. A. and M. E. Becker Have Location at 114 North Brand Boulevard

Although not yet fully equipped, Becker's Cut Rate Drug store, which has recently been opened at 114 North Brand boulevard, is now actively engaged in business. Within the next week or ten days the balance of the fixtures are expected to be up, and Messrs. J. A. and M. E. Becker, who are the proprietors of this new enterprise, announce that they will carry a full line of high-class drugs and sundries at cut-rate prices.

An ice-cream and soft drink parlor is being constructed in which local people will be able to enjoy cooling refreshments during the warm days of the summer.

Both J. A. Becker and his brother, M. E. Becker, are experienced in the drug business, having both owned drug stores in Wisconsin for many years. They sold out their two stores a little over a year ago and moved to Glendale, where J. A. Becker purchased a home at 425 Pioneer drive. His family is composed of his wife, Mrs. Olive Becker, and their two daughters, Ruth and Nevada.

Satisfied with Location

M. E. Becker states that they realized the business opportunities possessed by Glendale immediately upon their arrival and have been looking around for an opening ever since.

"We have finally secured a location that satisfies us," he states. "We looked around for some time before securing what we wanted, but are certainly well pleased with our location."

"While the new drug store is to be thoroughly up-to-date, Mr. Becker says that it will in no way resemble drug stores in many cities fittingly described as 'the shortest distance between two pints.'"

Of every eight persons in the United States one is foreign born, according to recent figures issued by the Census Bureau.

of the show, but the cast is just what one would desire—a lovely heroine, a villainous looking villain, and a good-looking young man to play second fiddle to Mr. Collier.

GLENDALE GATEWAY CLUB DISCUSSES IMPROVEMENTS

Informal Meeting Held Last Night; Installation of Street Lights Urged

The regular weekly meeting of the Glendale Gateway club was held last night at the branch library building with Stuart Street, the president of the organization, in charge. Due to the small crowd that attended the gathering it was conducted as an informal affair, with all of the members taking part in the discussion.

After the reading of the minutes of the last previous meeting had been dispensed with, a report by A. M. Salyer, chairman of the improvement committee, was given, regarding the installation of street lights in several parts of the southern section of the city. Mr. Salyer informed the body that the city manager had been interviewed on the subject, and had assured him that the request would be granted in the near future. The principal location designated in the request was in the immediate vicinity of the Southern Pacific depot and the "dark alley" just north of it.

Widening of Street

Charles L. Peckham, member of the Los Feliz Road committee, then gave a short talk, telling of the various proceedings that might be taken to secure a widening of south Glendale's main east and west thoroughfare. The plan of the Gateway club is to eventually widen the street from San Fernando Road to Glendale avenue, making strictly a business street out of it. Speeches were made by a number of the property owners within the boundaries mentioned, and although no official action was taken by the association regarding the matter a number of suggestions were made during the debate. A vote on the proposition will probably be taken at the next meeting.

At the close of the meeting the members were served with a delicious course of wafers and punch. The next regular meeting of the association is scheduled to take place on Thursday night of next week, and a large crowd is expected to attend.

Annual Picnic Will Be Held on Saturday

The annual picnic of the Tropic Presbyterian Sunday school will be held at Brookside Park Saturday, July 9. The afternoon will be devoted to swimming, playing tennis and enjoying various other sports and at 5 o'clock the lunch will be spread on the long tables under the trees.

The committee in charge of the affair includes H. E. Fry, superintendent of the Sunday school, F. E. Brown, Mrs. Claire Van Eitan and Miss Carol Duncan. About 100 young people are planning to attend the picnic.

Mrs. G. G. Neil Gives Dinner for Miss Bell

Mrs. G. G. Neil of 360 West Colorado boulevard was hostess Wednesday night at a dinner party, which was intended to be a surprise party honoring the birthday of Miss Jennie Bell of Lexington avenue. Unfortunately the honoree was kept so ignorant of the affair that she did not arrive until late in the evening, so the tapers were really turned on her friends.

Following the dinner the guests spent an evening at cards, those present being Mr. and Mrs. William McMillan, Mr. and Mrs. B. L. Holbrook, Mrs. Squires, Mrs. R. E. Downing, Robert Deane, the host and hostess and Miss Jennie Bell.

R. D. Angelica Taken Ill on Auto Journey

Friends of Mr. and Mrs. R. D. Angelica of 712 North Maryland avenue, who left Glendale by automobile about ten days ago on a tour of the northern part of the state, have received word of the illness of Mr. Angelica, who has been taken to a San Francisco hospital where an operation was performed. He will not be able to leave the hospital for over two weeks, which will necessitate having the automobile shipped back to Glendale.

Reports Wife Missing; She Gets Back Safely

A. Rehberg of 1111 East California avenue was given a scare last night when his wife, who had gone to Los Angeles early in the day, failed to return at her usual dinner hour. The Rehbergs are recent newcomers from Canada, and as yesterday was Mrs. Rehberg's first visit to Los Angeles it was feared that she had either gotten lost or had been the victim of foul play. The former was correct, however, as she became confused regarding the route and schedule of the Glendale cars. She finally arrived at her home late in the evening.

Local police headquarters were notified at 9 p. m., and within a short time a search would have been in progress had not Mrs. Rehberg suddenly shown up.
